International Women's Day

Date and Time: Sunday, March 8 09:00 a.m. - 9:00 p.m.

Event Location:

International Women's Day 2020 #EachforEqual

An equal world is an enabled world.

Individually, we're all responsible for our own thoughts and actions - all day, every day.

We can actively choose to challenge stereotypes, fight bias, broaden perceptions, improve situations and celebrate women's achievements.

Collectively, each one of us can help create a gender equal world.

Let's all be #EachforEqual.

Water for Women is working towards greater gender equality in all of our projects, and ensuring that we 'do no harm' in the process. See some of our updates from IWD2019.

World Water Day

Date and Time: Sunday, March 22 09:00 a.m. - 9:00 p.m.

Event Location:

Water and Climate Change

Water is critical to human survival and the foundation for sustainable development. In order for the world to achieve SDG 6 – safely managed water, sanitation and hygiene (WASH) for all by 2030, we must work together, collaborate and learn from each other and we must ensure that no one is left behind in achieving this goal. This is the best and only way to ensure safe, accessible and sustainable water for the 2.1 billion people who are still living without it.
